Experience

Teacher of Computer Engineering

Sep 2019 — Present

Currently responsible for teaching the basics of HTML, CSS, Responsive Design and C for teenagers, preparing practical and theoretical assignments for the students. Constantly improving the program to maximise the efficiency of learning.

Front-end Developer

Oct 2020 — Dec 2020

Participated in the development of a single-page web application for internal automation and accounting system for the education center. Did coding, testing, and debugging using JavaScript, HTML, CSS, React.

Digital Advertising Specialist

Jul 2020 — Sep 2020

Did advertising setup during recruitment of students in education centers. Was responsible for lead paid search ad campaign creation and management, determining the target audience, developing content for paid search campaigns, managing and creating content for social media channels, communication between education center and stakeholders.

Freelance Front-End Developer

Oct 2019 — Dec 2019

Worked collaboratively with team to develop and maintain websites. Assisted in e-shops maintenance. My duties were creating HTML pages, filling them with information, adding and changing the stylesheets, performing bug fixes and code optimization.
